—> **Vittoriano Manifesto!**

Entertaining tour for families with children (5-12 years old) of the Vittoriano and the Central Museum of the Risorgimento

What are the colours, shapes and objects that best represent Italy? What are the words and images that storytellers and artists use the most to describe the history of our country?

A special tour of the Vittoriano and the Central Museum of the Risorgimento will lead young and old visitors alike to discover the adventures of certain words, such as “homeland”, “identity”, “future” and “nation” to help them learn how to tell different stories over time. Together we can give shape and colour to our ideas, by imagining compositions of objects, letters and symbols to create original “family manifestos”.

April: 24 | 30 at 3:30 p.m.

—> **Plein-air Painting in the Rediscovered Garden**

Workshop at Palazzo Venezia

In the heart of Rome, on the slopes of the Capitoline Hill, there is a Renaissance palace that looks like a fortress. Its crenellated walls enclose a nineteenth-century garden inhabited by parakeets, soaring palm trees, magnolias and plants that come from the four corners of the world.

Immersed in the greenery of Palazzo Venezia's *Rediscovered Garden* and surrounded by dappled light created by the flowers, trees and water of the splendid marble fountain, participants will be able to observe the surrounding nature, record every variation in light and colour, and experience first-hand the practice of plein-air painting like the famous Impressionist painters.

May: 1 | 15 | 28 at 3:30 p.m.

EDUCATIONAL ACTIVITIES PROGRAMME

Among hydrangeas, pine trees, magnolias and a magical grove of acanthus, a special dramatised narrative tour will lead visitors to discover a story inside history, that will conjure images of adventurous journeys and incredible feats and teach visitors lots of curious facts that are just waiting to be uncovered.

A tour that will lead visitors on a journey of discovery that highlights how collections like these often reflect not only the collector's tastes but also the taste of an era, its attitude and shared feeling, which is just as true today as it is for the past. Participants can 'don the cap' of special collectors to create a unique family collection.
